Reinforcement Fiberglass

Width 70 mm Most pressure-sensitive tapes take time to develop a destructive bond when applied to a porous substrate surface. Water-activated reinforced tapes bond instantly to both virgin and recycled fiber (corrugated carton, paper, etc.) surfaces. Medium-duty tape adheres instantly to both virgin and recycled fiber surfaces to generate an immediate destructive bond. Starch-based adhesive aggressively bonds to corrugated cartons, even in dusty or dirty environments. Durable construction is not affected by extreme hot or cold temperatures to allow use in all weather conditions. Water-activated formulation leaves a broken seal for tamper-evident packages. Sealing tape is designed for use on average-weight cartons up to 55 lb. « less
